## Design & Architecture

The entire property consists of a vast and lush tropical garden of over 11 000 m<sup>2</sup>, planted with indigenous and exotic species. It comprises **4 large detached villas** each **with 4 or 5 bedrooms**. Thanks to special tropical architectural landscaping including a series of small paths, secret passages and bamboo palings, there is a **feeling of total privacy in each villa**.

The designers of the Villa Mathis have successfully created a prestigious establishment by interpreting traditional architecture. They added subtle and refined decoration using local material such as Alang-Alang roofs and Terrasso floors.

## Pampering

Begin by strolling through the exotic gardens of the villas, take the little secret passages, the Japanese stepping stones, and the small wooden bridges over water features, and let **a feeling of total peace pervade your being.**

A little Zen conditioning before starting your wellness programme, which may take place in the spa, on the terrace of your room, in the gardens of the property or elsewhere, the choice is yours...

We offer a variety of **traditional** or **aromatic treatments** and **massages**, using Balinese ancestral Jamu methods. Within 30 min of requesting your massage, a bed will be set up in one of the gardens surrounded by wonderful greenery and serenaded by the birds in the trees. In the expert hands of Balinese masseuses, you will quickly lose track of time and concentrate only on the extraordinary **feeling of well-being that gradually envelops you.**

You will be served a **rich and varied menu** encompassing classic Indonesian dishes, some Asian dishes and a selection of more international dishes to delight every palate. Be it in a Lounge atmosphere at the water's edge or a cosy lovers' tête-à-tête, the variations are endless...
